

Samsung Gravity T, Gravity 3 and :))

T-Mobile stick together

Samsung Gravity T

The Samsung Gravity T is a messaging powerhouse equipped with both a full QWERTY slide-out keyboard and a touch screen, making it easy to keep in touch with family and friends through messaging, social networking, and personal or Exchange e-mail. Featuring fully customizable home screens and task bar widgets, the Gravity T is 3G-enabled, delivering faster data speeds while surfing the Web via the Google search toolbar or T-Mobile web2go.

Features:

The Samsung Gravity T features a full QWERTY slide-out keyboard and touch screen; support for SMS, MMS, instant messaging (IM), and personal and Exchange e-mail; a preloaded social networking application — T-Mobile Social Buzz; and a 2-megapixel camera with 12x digital zoom and video capture. The device also includes a music player, microSD slot for up to 32 GB of removable memory, stereo Bluetooth connectivity, and A-GPS with TeleNav and Google Maps. The Samsung Gravity T is a 3G (UMTS/HSDPA Bands I & IV), quad-band GSM world phone (850/900/1800/1900 MHz) and is UMTS/HSDPA-capable (AWS Bands I and IV). The Samsung Gravity T is available for \$74.99 (after a \$75 mail-in-rebate) with a two-year service agreement and qualifying data plan at T-Mobile retail stores, select dealers and online at <http://www.tmobile.com>.

Samsung Gravity 3

Available in a fun marine blue finish, the Samsung Gravity 3 is a 3G messaging device with the popular design of an external T9 keyboard and a slide-out, full QWERTY keyboard. The Gravity 3 features a dedicated physical messaging button with quick access to all your messaging needs, including personal and Exchange e-mail, text and picture messaging and the built-in social networking application — T-Mobile Social Buzz.

With preloaded games such as "Guitar Hero 5," the Gravity 3 keeps you entertained while on the go.

Features:

The Samsung Gravity 3 features both a T9 and full slide-out QWERTY keyboard; support for SMS, MMS, IM, and personal and Exchange e-mail; a preloaded social networking application — T-Mobile Social Buzz; and a dedicated external messaging button. The device also includes a 2-megapixel camera with 12x digital zoom and video capture, music player microSD slot for up to 32 GB of removable memory, stereo Bluetooth connectivity and A-GPS with TeleNav and Google Maps. The Samsung Gravity 3 is a 3G (UMTS/HSDPA Band IV), quad-band GSM world phone (850/900/1800/1900 MHz) and is available for \$49.99 (after a \$50 mail-in-rebate) with a two-year service agreement and qualifying data plan at T-Mobile retail stores, select dealers and online at <http://www.tmobile.com>.

Samsung :))

The Samsung :) is an accessible, messaging phone perfect for the novice texter. Featuring a unique rounded-edge design with a slide-up full QWERTY keyboard, the Samsung :) fits comfortably in the palm of your hand for easy text, picture and video messaging, IM and connecting with friends and family over T-Mobile Social Buzz — a preloaded social networking application.

Features:

The Samsung :) features a user-friendly, slide-up full QWERTY keyboard; support for SMS, MMS, IM, and personal and Exchange e-mail; T-Mobile Social Buzz; a 1.3 megapixel camera with 12x digital zoom and video capture; a music player; microSD card slot for up to 32GB of removable memory; stereo Bluetooth connectivity; and A-GPS with TeleNav. The device is a quad-band GSM world phone (850/900/1800/1900 MHz) and is available for \$19.99 (after a \$20 mail-in-rebate) with a two-year service agreement and qualifying data plan at T-Mobile retail stores, select dealers and online at <http://www.tmobile.com>.

* 3G coverage is available in locations nationwide but may not be available everywhere. For more details about where T-Mobile network coverage is available, please visit <http://www.t-mobile.com/coverage>.
